PROFESSIONAL SUMMARY

Results-driven Front-end Specialist with 3+ years of progressive experience in web development, excelling in enterprise application delivery, collaborative UI/UX design, and end-to-end product lifecycle. Expert in TypeScript and React (including Next.js), with a strong grasp of backend concepts and a track record of building performant and accessible cloud-based solutions. Experienced in collaborating with cross-functional teams to ship impactful features and contribute to efficient codebases through code reviews and tooling enhancements. Adept at translating design specifications into elegant, scalable products that power developer productivity.

PROFESSIONAL EXPERIENCE

Crisptv, Enugu, Nigeria

Software Developer January 2025 - Present

- Led the end-to-end development of kuepass.com, an event management and ticketing platform.

- Built a comprehensive dashboard for event hosts to manage complex ticket inventory, process transactions, and track sales data.

- Leveraged AI to automate key platform processes and workflows.

Soundrig, Remote

Frontend Developer October 2024 - November 30, 2025

- Contributed to the frontend team for Soundrig.io, a music NFT platform.

- Integrated multiple third-party Web3 wallets to handle complex blockchain transactions.

- Developed a seamless user experience built on top of varied, high-stakes external APIs.

GENESYS TECH HUB, Enugu, Nigeria

Web Developer

December 2022 – December 2024

- Completed a year-long in-person internship, followed by retention as contract staff, delivering product features to 1000+ users on flagship projects.

- Developed scalable cloud-based applications, including CUE and Eva Kitchen, utilizing TypeScript and React.js for performant UIs.

- Introduced robust front-end architectural patterns, consistently reducing bug rates by 25% through comprehensive testing and review workflows.

- Mentored junior developers and facilitated cross-team design reviews to share knowledge and

improve code standards.

Designed and implemented the UI architecture for high-impact features, routinely collaborating with designers and backend teams.

Enugu State Hospital Management Board, Enugu, Nigeria

Environmental Health Department Intern (NYSC)

2019 – 2020

Enforced health and hygiene protocols, reducing violation rates by 18%.

Investigated and resolved 25+ community health issues.

Contributed to collaborative health research and implemented community risk reduction strategies.

Bush House Arena, Enugu, Nigeria

Supervisor

2022

Led operations and guided a team of 15+ staff members.

Instituted new team evaluation protocols, improving monthly efficiency by 20%. Delivered real-time feedback and supported talent development initiatives.

Chris-Lab Scientific Services, Ekpoma, Edo State

Quality Control Personnel/IT Intern

2017 – 2018

Conducted over 100+ chemical analyses with a 98% accuracy rate. Enhanced material quality assessments, resulting in 15% fewer rejected products.

Streamlined laboratory workflows by introducing improved testing practices.

EDUCATION

Ambrose Alli University, Ekpoma, Edo State, Nigeria

B.Sc. in Bio Chemistry, September 2013 - August 2017

Genesys Tech Hub, Enugu, Nigeria

Web Development Internship Program, 2023 – 2024

National Youth Service Corps (NYSC)

Discharge Certificate, 2020

Queen's Model Secondary School, Enugu, Nigeria

WASSCE and NECO, 2008

Ekulu Primary School, Enugu, Nigeria

First School Leaving Certificate, 2002

ADDITIONAL SKILLS

TypeScript & React.js expertise

Vite, Jest, and Storybook for modern UI component development
Next.js, Python, Django REST framework
MUI/Material-UI & Figma (UI/UX translation and prototyping)
State management: Redux, Zustand
Code reviews and architectural design for scalable frontend
Backend architecture understanding
API integration, Git, GitHub Actions (CI/CD)
Collaboration on enterprise features and developer tools
Prometheus, Grafana (observability basics), Notion, Slack, Discord
Excellent communication, mentoring, and teamwork

RELEVANT STATISTICS

Delivered product features to 1000+ users on flagship projects
Reduced bug rates by 25% via code reviews and testing
Improved streaming efficiency by 30% on blockchain-integrated platform
Led team operation improvements resulting in 20% higher monthly efficiency
